

FLEXIBLE COUPLINGS

BOSHART
INDUSTRIES

TO CONNECT CLAY, CAST IRON, PLASTIC, COPPER, STEEL, AND LEAD

FLEXIBLE COUPLINGS, FLEXIBLE ELBOWS, AND TEES

Manufactured from elastomeric PVC to provide a quick, flexible connection for above or below ground applications of drain, waste, and vent piping. Easily installs in confined spaces and will fit repair jobs where a fitting has been cut out.

FEATURES

These offer a quick and economical solution for 1¼" or 1½" metal or plastic tubular drain pipe connections to common household drain, waste, and vent pipe. Complete with two 300 series stainless steel clamps for a secure leak proof seal.

FLEXIBLE COUPLINGS, FLEXIBLE ELBOWS, AND TEES

Shielded couplings with elastomeric gasket for joining hubless cast iron pipe, plastic, copper, steel, or lead in drain, waste, and vent applications. The clamps and corrugated shield made from 300 series stainless steel are joined together by floating eyelets allowing them to work independently from each other to produce a positive seal.
