

HOSE CLAMPS

BOSHART
INDUSTRIES

GEAR-STYLE

PREMIUM 87 SERIES 300 SERIES ALL-STAINLESS STEEL MARINE GRADE CLAMP

Ideal for applications where greater corrosion resistance is required, such as:

- Water well installations
- All plumbing applications (including buried pipe connections, hog, chicken, dairy barn, etc.)
- Recreational boating applications

Resistant to:

- Atmospheric corrosion
- Many organic chemicals
- A wide variety of inorganic chemicals

Other details:

- 5/16" 300 stainless steel slotted hex screw
- 300 stainless steel band and housing
- 1/2" wide band
- High nickel content provides strong corrosion resistance
- Suitable for outdoor use with no shielding
- UPC (United Plumbing Code) listed by IAPMO

77 SERIES STAINLESS STEEL HOSE CLAMP WITH CARBON STEEL SCREW

Part stainless steel construction, the combination of high nickel content of the 200 series stainless steel and the plating of the carbon steel screw makes this hose clamp ideal for:

- Above ground outdoor
- Indoor common home applications
- Many automotive applications where corrosion is somewhat of an issue

Other details:

- 5/16" Yellow dichromate plated carbon steel slotted hex screw
- 200 stainless steel band and housing
- 1/2" wide band
- Used for all standard clamp applications
- Yellow colored screw allows for easy identification against an ALL stainless steel clamp
