

# MODULAR TILT BIN SYSTEMS

Create your own custom designed storage system, these modular cabinets are stackable and mountable and easily labelled. Bins can be divided easily with plastic dividers (sold separately) and can also be fitted with locking rods to prevent the bins from opening if units are transported. These popular tip out bins, minimizes the chance of parts getting put back into the wrong bins which is a big problem in displays using open front bins or drawers with multiple dividers.

Part No.	Bin Units	Tag Holder	Width	Height	Depth	QTY	Carton WG lbs
<b>Horizontal Bin Units</b>							
MD-TOB6	6	Yes	23-5/8"	4-1/2"	3-5/8"	12	34
MD-TOB5	5	Yes	23-5/8"	6-1/2"	5-1/4"	6	29
MD-TOB4	4	Yes	23-5/8"	8-1/8"	6-5/8"	6	42
MD-TOB3	3	Yes	23-5/8"	9-1/2"	7-3/4"	4	34

These tip out bins are easily fastened to the frames below (sold separately), by sliding the bin units onto the frame from the top until it sits firmly on either the angle iron stop or the bin previously fastened.

# WALL MOUNT / FLOOR STAND FRAMES

The wall mount and floor stand frames are made from heavy gauge steel frames which are then painted using a coating process in which the paint is baked on to ensure a superior long lasting finish. These frames can be assembled in a number of configurations to make 24" and 48" single and double sided floor stand units or can be wall mounted or fastened to existing peg board displays. Displays can be custom made to your requirements using any combination of the horizontal tilt bins.

Part No.		Width	Height	Depth
<b>WALL MOUNT FRAME</b>				
MD-WMF24	Channel Frame	23-3/8"	64-1/2"	1-1/2"
<b>FLOOR STAND KIT</b>

# FREE STANDING SLIDER CABINET

This system features four individual panels filled with tip out bins of which two are fixed to the back side and two slide easily from left to right allowing free access to all four panels. Manufactured of tough 14 gauge steel with putty powder coat finish. This slider unit can hold up to as many as 336 bins depending on the size of bin selected. Build your own custom display using 9, 6, 5, 4 horizontal bin units. Unit allows for 3 rows (or 3 levels deep) of #4 bins. Larger sized bins will not have sufficient clearance to allow for the front to sliding panes to be moved from side to side.

The unit is shipped "knocked down". The side frames are one piece welded construction, but the cross members must be bolted in to assemble the unit on site.

Part No.	Width	Height	Depth	Color
<b>Floor Stand Display - Single Sided</b>				
MD-FSGC48	48"	77"	16"	Ivory
