

2-SSC SERIES STAINLESS STEEL CLAMPS

APPLICATION:

- 2-SSC67xx series: all stainless steel clamps are best suited for less corrosive environments such as indoor use or shielded areas
- 2-SSC77xx series clamps combine the high nickel content stainless steel and plating of the carbon screw, allowing this clamp to be used in above ground outdoor and indoor applications where corrosion is somewhat of an issue. This clamp can be used for all standard clamp applications.
- 2-SSC87xx series: all 300 series stainless steel marine grade clamps contains a high nickel content providing strong corrosion resistance for buried waterlines and well pump installation, and is suitable for outdoor use with no shielding

SPECIFICATION:

- Dimensions and threads conform to SAE J1670 Type F
- cUPC certified (2-SSC67xxx and 2-SSC87xxx series, 1/2" Wide band clamps only)
- Materials conform to AISI grades
- Stainless Steel Band & Housing
- Hex Screw with deep slots for quick installation
- Band in Stainless Steel with perforations for smoother worm-drive operation
- One piece housing design, mechanically locked to band

PACKAGE:

- 2-SSCxxxx clamps ,such as 2-SSC8720, are packaged in bags
- 2-SSCXxxxx clamps, such as 2-SSCX8720, are packaged in boxes
- 2-SSCBxxxx clamps, such as 2-SSCB8720, are packaged in bulk

2-SSCxxxx clamps,
packaged in bags

2-SSCXxxxx clamps,
packaged in boxes

2-SSCBxxxx clamps,
packaged in bulk
