

14-(G)PPE SERIES PLEATED POLYESTER SEDIMENT CARTRIDGE

APPLICATION:

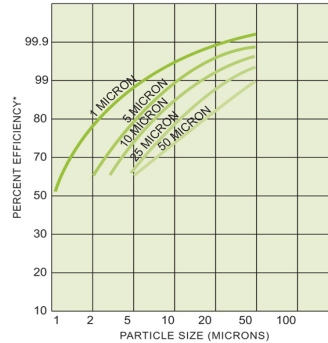

- Pleated surface area provides greater sediment and dirt holding capacity while maintaining flow rate and reducing initial pressure drop
- Suitable for residential, commercial and industrial applications
- Cartridges can be cleaned and reused in most applications

SPECIFICATIONS:

- Filter media: Polyester
- Filter core: Polypropylene
- Outer Netting: Polypropylene
- End Cap: Polypropylene with TPR Gasket
- FDA Approved

RATINGS:

- Max Temperature Rating: 140°F (60°C)

Always Test Water - Do not use this product with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the filtration system.

Change Out - Replacement filter cartridges have a limited service life. Changes in taste, colour and flow of the water (other liquid) being filtered are signals that replacement of the cartridge may be necessary.
